The sea influences our lives in a subtle but pervasive manner. In the same way the theme of this yearbook—the sea—permeates our school experience. We try to reflect some of this influence of the sea in our cover and sketches.

PUBLISHED BY THE CLASS OF 1966

## Foreword

As the year draws to an end, many of us begin to look back on all the memories we have of Winthrop High. The 1966 Echo is a record of that year. Its purpose is to preserve the little odds and ends, and the great important events, so that perhaps in twenty years, we might pick up our yearbooks and remember exactly what happened

and how we reacted. The Echo is a record of all the good times—the Senior Social, the Thanksgiving Rally, the Valentine Dance. It records the groans of anguish during Midyears, and crazy wonderful things like the Fudge Drive, and the struggle to get a date for the Prom. All the little things that helped us to get through three

years of study are here.

For many of us, the most outstanding memory will be the change-over to the new school. During the months we have spent here, we have come to appreciate the new labs, the fine building, and the clean modern cafeteria. Yet, strangely enough, there are those of us who honestly miss the wobbly

back stairs, the "marble" statues in 331, and Abraham Lincoln, on whose toes we parked our books while phoning. We cannot help but remember Winthrop High in our on-coming adult years. This 1966 Echo is, and will be a key—a key to open the doors of our youth, and high school days.

# Dedication

Twenty-eight years of dedicated service to the Winthrop Public Schools have brought to Arthur W. Dalrymple high position, weighty responsibility and great praise. Merely to list the associations, positions and degrees he holds would be to honor him. He is one of two school superintendents from Massachusetts elected to serve as Director of the Board governing the New England Association of School Superintendents. He is a member of the Massachusetts Department of Education Committee on Certification of School Superintendents. He is a member of the Official Board and Board of Education of the First Church Methodist of Winthrop where he has served as a Sunday School teacher for 28 years with a perfect attendance record.

Mr. Dalrymple was Special Gifts Chairman of the Polio Drive, and served the Red Cross, the Community Fund, the Bay Shore Boy Scout Council, the Committee to institute North Suffolk Mental Health Clinic, the Rotary Club, the Golf Club, and the Alumni Associations of Tufts, the University of New Hampshire and Cushing Academy.

He is a faithful husband and father of five children—Robin, Joy, Carol, Scott and Margaret—whose basic belief is in what is best for the children of Winthrop. As Director of Adult Education, as Assistant Principal of the Junior High School, as a teacher at the Junior High School and at Winthrop Senior High School for nine years, he found experience the best teacher and objective merit the best test of educational value.

He holds 24 hours of courses in graduate education from Harvard and University Extension, a Master's degree from Tufts, and a Bachelor of Arts degree from the University of New Hampshire. He was President of his graduating class at Winthrop Senior High School, and a three-letter athlete in baseball, basketball and football.

The Boston papers, during the six year struggle for the construction of the new Winthrop Senior High School, characterized Superintendent Arthur W. Dalrymple as a fighter for good education. The Vice-President of Tufts University has said of Mr. Dalrymple: "I know he has a fine mind and an excellent professional attitude. Character-wise he is above criticism." Finally, when the School

Committee granted the Superintendent of Schools tenure of office in 1960 by a unanimous vote, the present chairman of the School Committee, Mrs. Giromini made the motion "... in recognition of outstanding work, for his vision in seeing problems that occur in this school system and giving prompt, practical solutions to them, for his careful choice of personnel, and for his never losing sight of the fact that the schools are run for our children."

The dedication of this yearbook may seem a small honor to a man accustomed to accolades such as those listed above. Yet it is fitting that the first yearbook to be published from the new Winthrop Senior High School be dedicated to a man whose nearly thirty years of professional public service have supported a climate of excellence in which magnificent buildings, programs and students are able to grow.

One of the most important organizations in the town of Winthrop is the School Committee. This dedicated group of citizens reviews every proposal dealing with the public schools.

Every Wednesday night, the five members of the group, Mrs. Giromini (chairman), Mr. Milne, Mr. Hill, Mr. Canavan, and Dr. Glazer, meet to discuss and solve the various problems of Winthrop schools.

## School and Building Committees

The Town Meeting established the Building Committee to oversee the construction of the new high school building. Here Mr. Brookes is helping them choose equipment for the TV station. Discussing the camera are: Mr. Oliver Greene, Mr. Winthrop Farrell, Mr. Gene Wasserman, Mr. John Murphy, Chairman, and Mr. Andrew Biggio. Absent from this picture is Mr. Mel Mael

Dear members of the class of 1961:

I want to congratulate each member of the Class of 1961 on his graduation from the new Winthrop Senior High School. You are its first graduating class. You have been led by a fine president for three years. You have been a fine class. You and we have brought great honors to Winthrop High School and I am proud of this. In the weeks, months and years to come, you will realize just how well you have prepared yourself for this very competitive world into which you are now going to enter. Do not be afraid to take time out and seek more education, no matter what it may be nor what it may cost. It will pay off. We will get about 35 per cent of this class into college. We hope you all can complete your college education. You alone are going to determine this. It is not going to be easy—it is going to mean a lot of very hard work.

Your teachers and I have tried hard to make good citizens out of you and time only will tell.

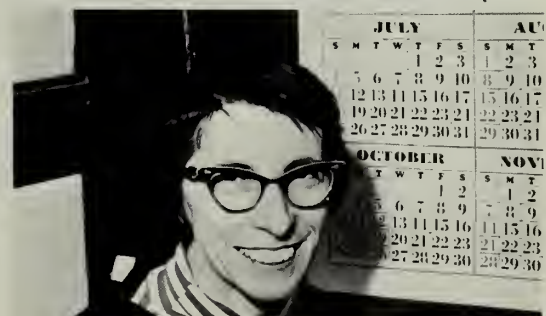

Good luck in your future endeavors and may the best be with you always.

Sincerely,

Posing with Mr. Duplin here are the Sophomore Class candidates for office. As the campaign entered its final stages, the signs indicated the sophomoric condition of the candidates: "Sophomores arise!" announced one sign, "all you have to lose are your gains".

The old cafeteria rocked with the chanting of slogans ... rhyming "Get ahead with Fred", and "Be a pal to Mal". Advertisements quickly became hackneyed contributions to the tired campaigns of the thoughtless, the mindless and the witless. "Put a tiger in your tank" was typical while some hard thought produced the original quip: "You're in luck with Huck".

After the confetti and the bands and the rallies had blasted their partisan messages, the Franks and the Reeds and the Hucks made their separate peace.

# THE SECOND TURN

## What Is Winthrop High School?

It's the way you feel on Monday morning while getting off the bus . . .

Ignoring Paul McCartney at 7:58 . . .

the freedom to worry about the work you haven't done.

"NOW HEAR THIS.

... that is all."

W.H.S. is crowded corridors ...

and Mr. Colby.

Winthrop High School has special places: for planing boards,

and weighing liquids . . .

for chasing balls

and talking in halls.

We found time for monkey business . . .

but not in here.

but looked forward to better things.

We remembered an old friend

During 4th period we thought of this ...

with hungry eye

and hungry stomach,

and hungry mind,

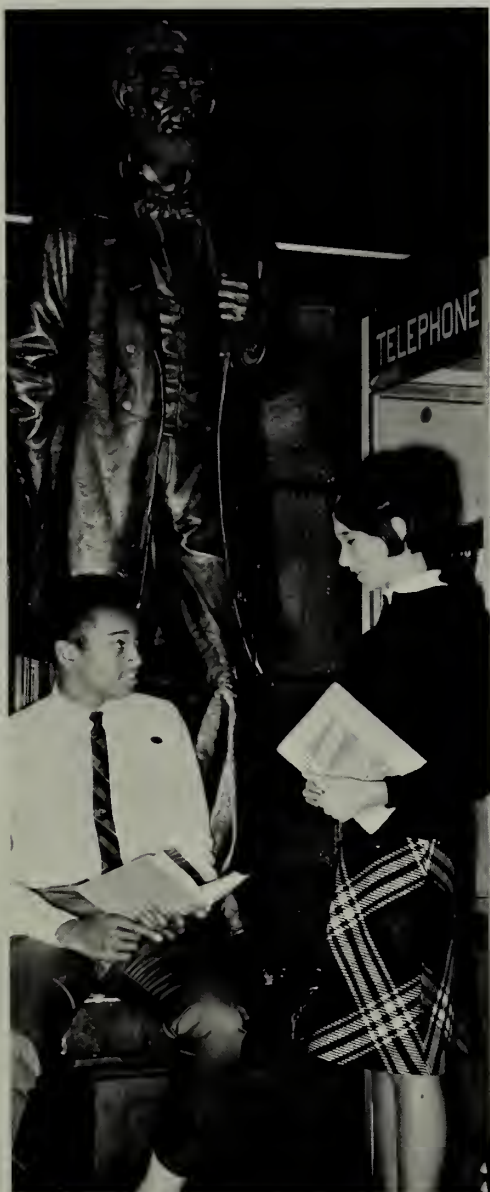

to conclude a culinary symphony . . .

As our vigilant Praetorian scans the hostile horizon,

and then, in the end, we pay.

he remembers days of glory

and moments of anguish.

After lunch it was back to work for some,

and something else for others.

We checked everything . . .

the dress, the homework,

and the typing . . .

with diligence,

thoroughness

and precision.

There were time when school could be fun—like when it was over . . .

or after rallies.

We also learned to work . . .

together . . .

with others . . .

to provide for basic needs.

Other basic needs included . . .

study,

companionship,

more companionship . . .

and more companionship.

"Quick Mr. O'Neil, find something cheap to hit."

From moments of art,

and beach time pleasure,

from sublime to ridiculous

we went in our leisure.

We tried to be intellectually curious

and socially aware...

gracefully victorious ...

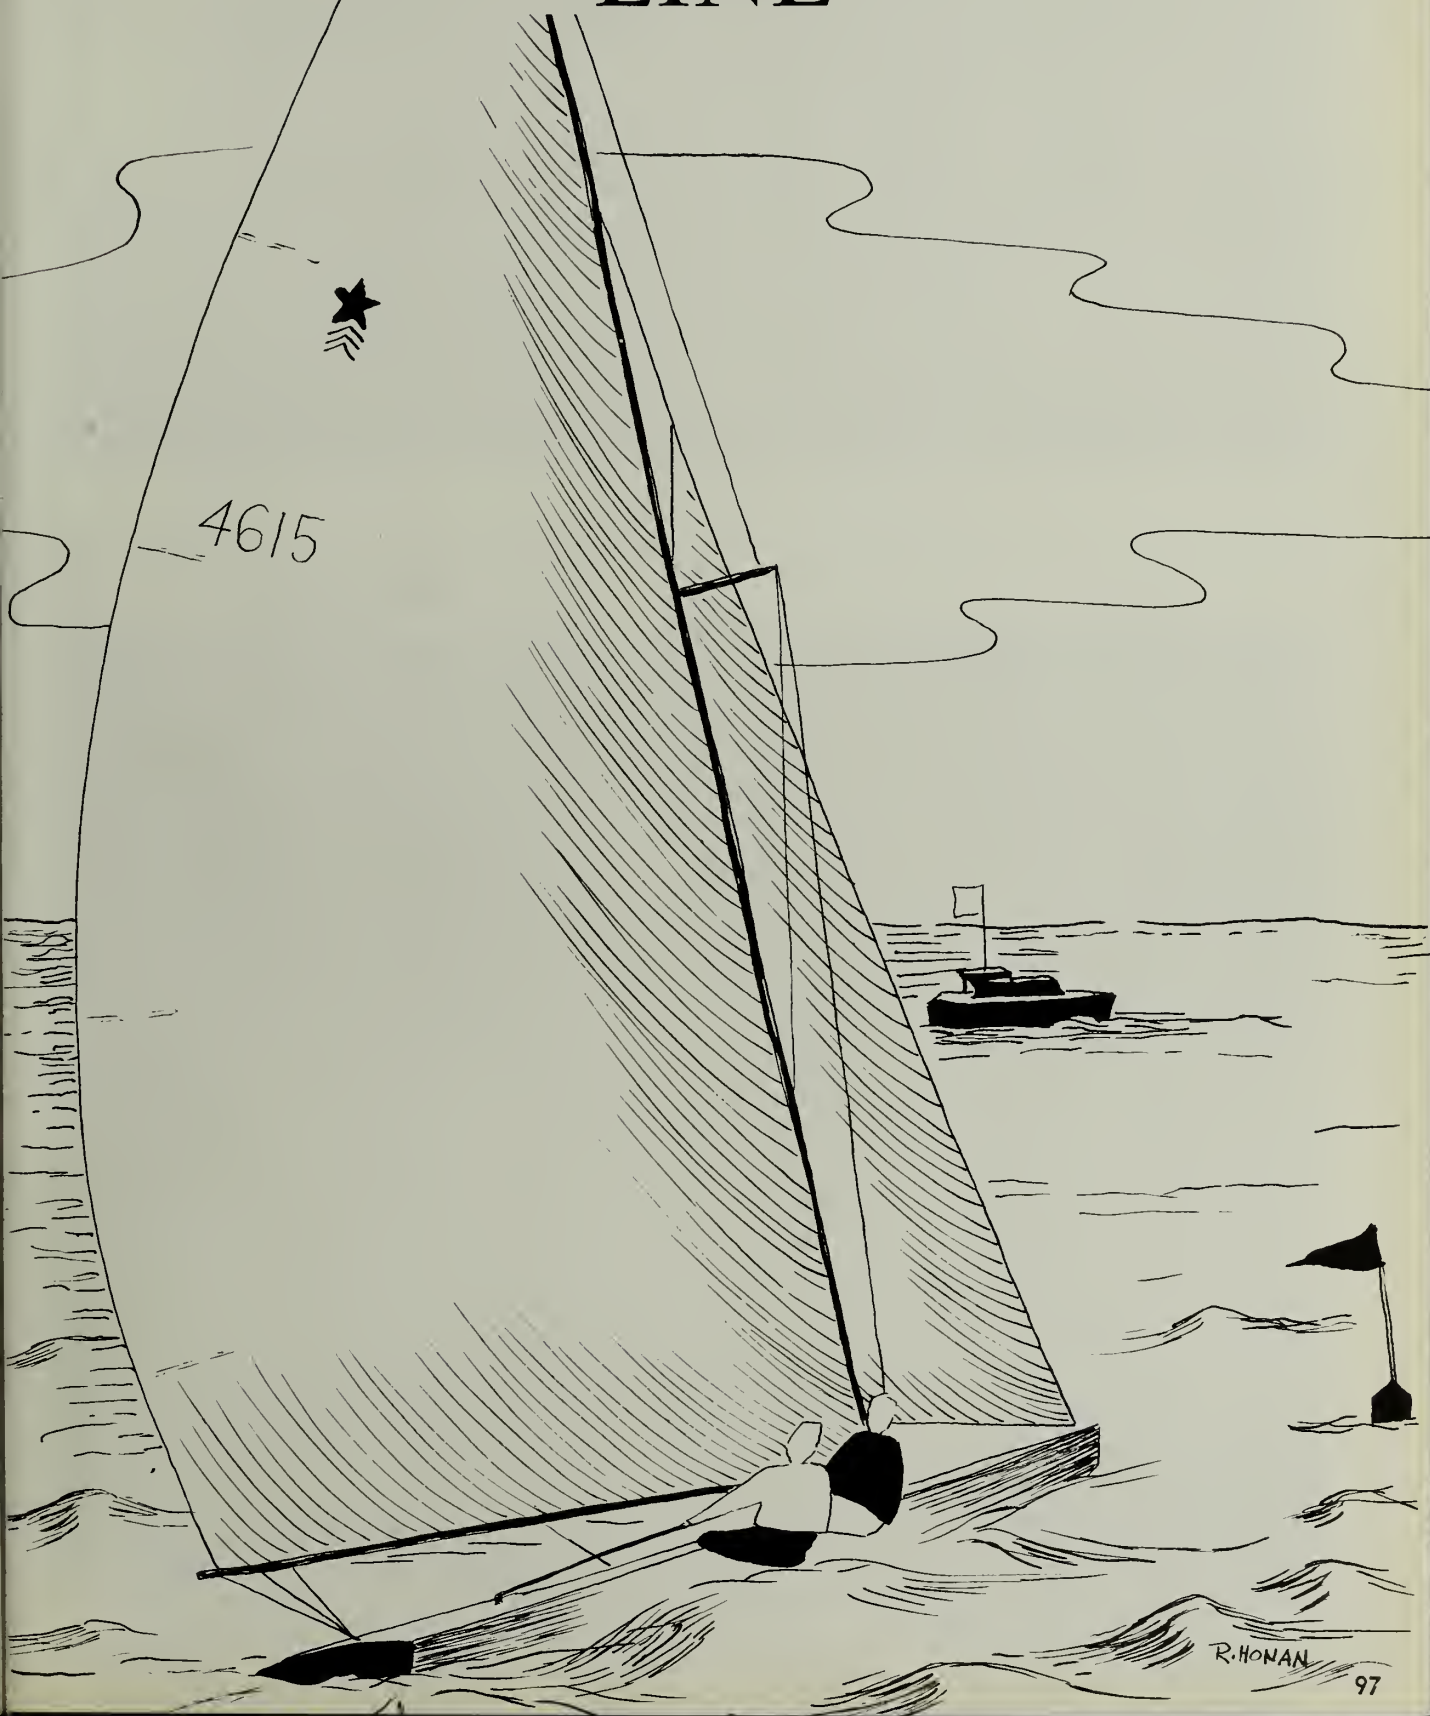

We learned to care . . .

and so it ends

# Student Interests Examined

Every Monday morning our Student Council meets in the Administration Conference Room. With President Pete Rozantes presiding over the meeting, many of the various student problems like cheating and the Code of Dress are discussed. Talent Show is one of their major endeavors, and all proceeds are put into a trust for a scholarship.

The council also makes the nominations for our Good Government Day and other representatives. Through their advisor Mr. Domenico, the Student Council works with the Administration to link the students with the faculty.

The officers look over some new proposals.

## Humanities Series Adds Culture

THE CHARLES PLAYHOUSE ACTING COMPANY

Miss Sharples has outdone herself this year in her presentation of the Humanities Series. Two of the finest programs were *The Living Stage '65*, and the Curry College Choir. The former was produced by The Charles Playhouse Acting Company and included excerpts from "Romeo and Juliet", "West Side Story", "Sidewalks of New York", "The Matchmaker", "Five Finger Exercise", and "The Fantastics".

The Choir sang many selections from Classical to Folk Music.

We all hope that Miss Sharples continues with these stimulating programs.

It's a big time every Monday morn. Seventy of us go down into the Music Hall. We shout into horns, squeal through clarinets, and bang on kettle drums. Sometimes we may even play together. When that happens, the world is sweet . . . Mr. Harotian smiles, and harmonies flow gently through the air.

# Musical Appreciation W.H.S. Chorus

The 1966 Winthrop High School Chorus

This year under the expert direction of Mr. Harotion, the chorus has advanced remarkably. Taking "The Sound of Music" as their major theme, this group of talented vocalists has worked on many of the best loved songs from musicals like "Climb Every Mountain," and "The Sound of Music".

Some of the senior members.

# Folk Music Society

By listening to the recording of popular folk singers, Mr. Levitt hopes to give the students a background in one of today's popular music forms.

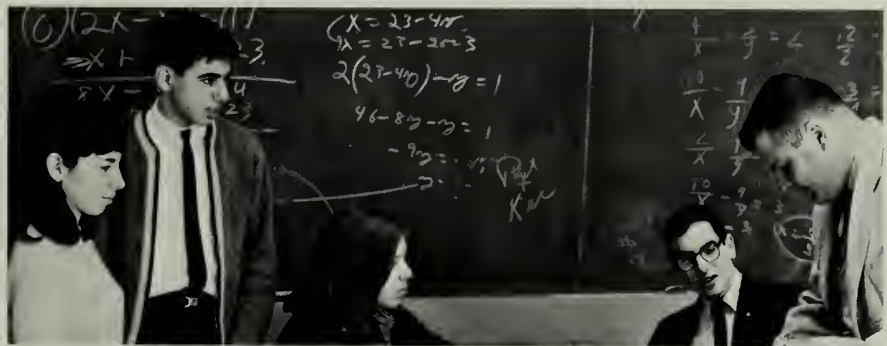

## Mental Stability — Chess Club

The "Chessmen" make up one of the most aggressive teams. The senior members coach the younger boys, and their results are impressive. In the New England Tournament of master players Barry Altschuler and Mel Green finished near the top of the national standings.

# Echo

The last deadline: Richard Gross, Bonnie Bateman, Larry Slater, Nessa Kaplovitz, Joe Lanza, Ricky Wein, Dotty Vitagliano, Arthur Levin and advisor, Mr. McLellan. The Echo resounded to their voices.

"What is Winthrop High School?"

"It's how you feel when the yearbook work's done."

Anyone who passed room #200 after school would be sure to hear the yearbook staff at work. There was much time spent and much effort put into this book, your yearbook. We like it. We hope you do too.

# Little Sir Echo

This year the "Little Sir Echo Staff" has done a superb job with the school newspaper. The editors Rachel Bramson, Paul Spector, Irma Cole, David Amirault, Sandy Ravich, Henry Tarbi, Alan Katz, Mal Weinstein, Ricky Wein, and Joanne McNicholas spent many tedious hours producing the paper. Next year's staff will have its work cut out to improve over this year's performance.

Editor Sandy Ravich and Advisor Mrs. Siddiqui.

Irma distributes the newspapers to a "substitute" teacher.

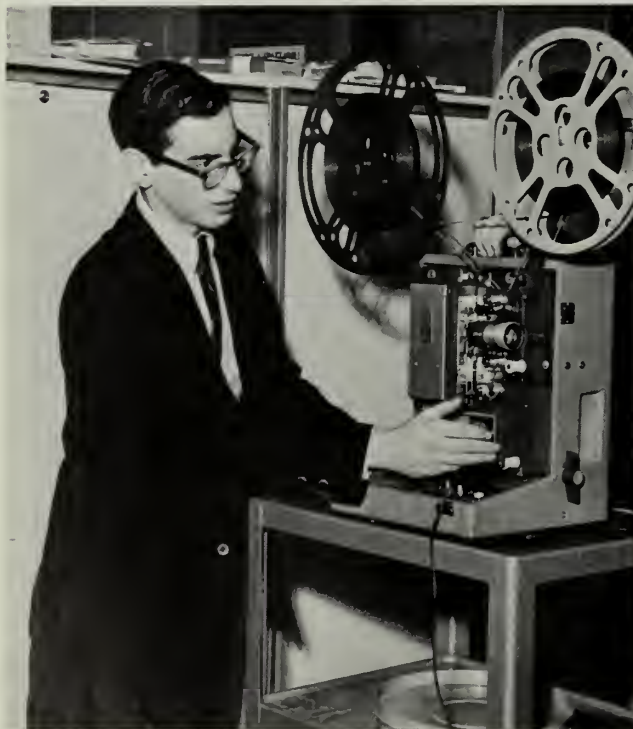

## Breakthrough — WHS

Due to public foresight, Winthrop has become one of the most scientifically progressive schools in Eastern Massachusetts. In fact, electronics firms are interested in "showing" their most modern equipment here. As a result there is a TV studio in room #241. This year the members of the TV crew have been busy assisting Mr. Brooks in transporting, purchasing, exhibiting, and setting-up new equipment. Throughout 1967 we will be seeing more of the TV crew. They will be telecasting throughout the school and providing educational TV tapes for classes.

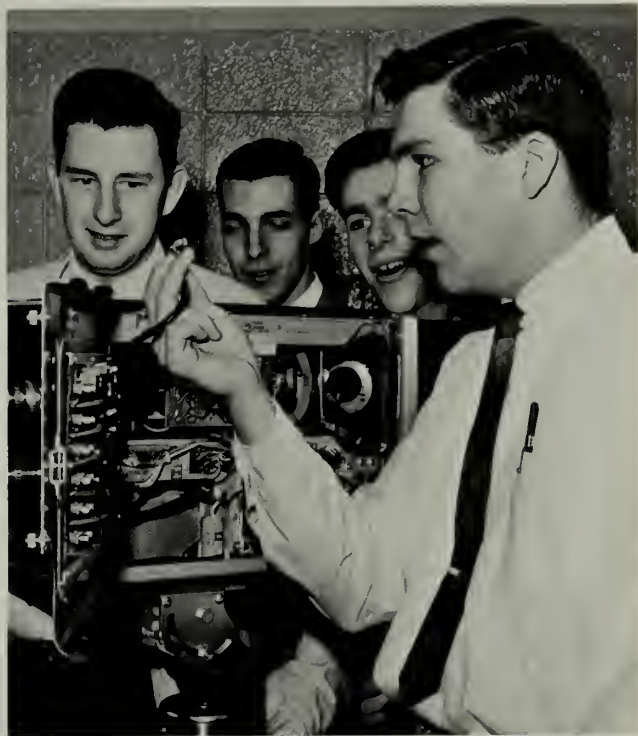

## From Projector to —

## Recorder — Audio-Visual Advance

Having come up from the cellar the Audio-Visual Aid Crew still needs room to grow. The "AV Crew," under the very capable guidance of Mr. Cramb, supplies a valuable student service: Its members operate the stage facilities, service the projection equipment, and assist the faculty in running all of the school's complex audio-visual aid systems. With their well selected stock of equipment and their carefully chosen films, these boys help add spice to our classes.

## Lunchroom Workers

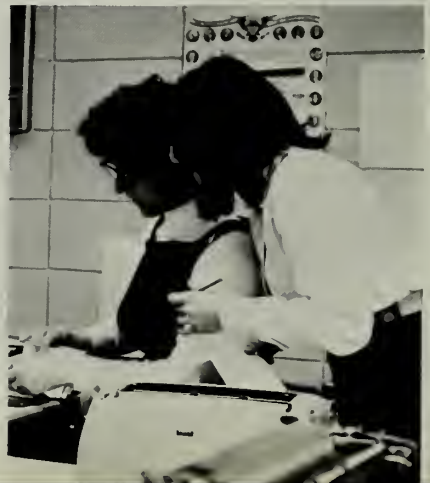

## High Ideals — Caduceus Club

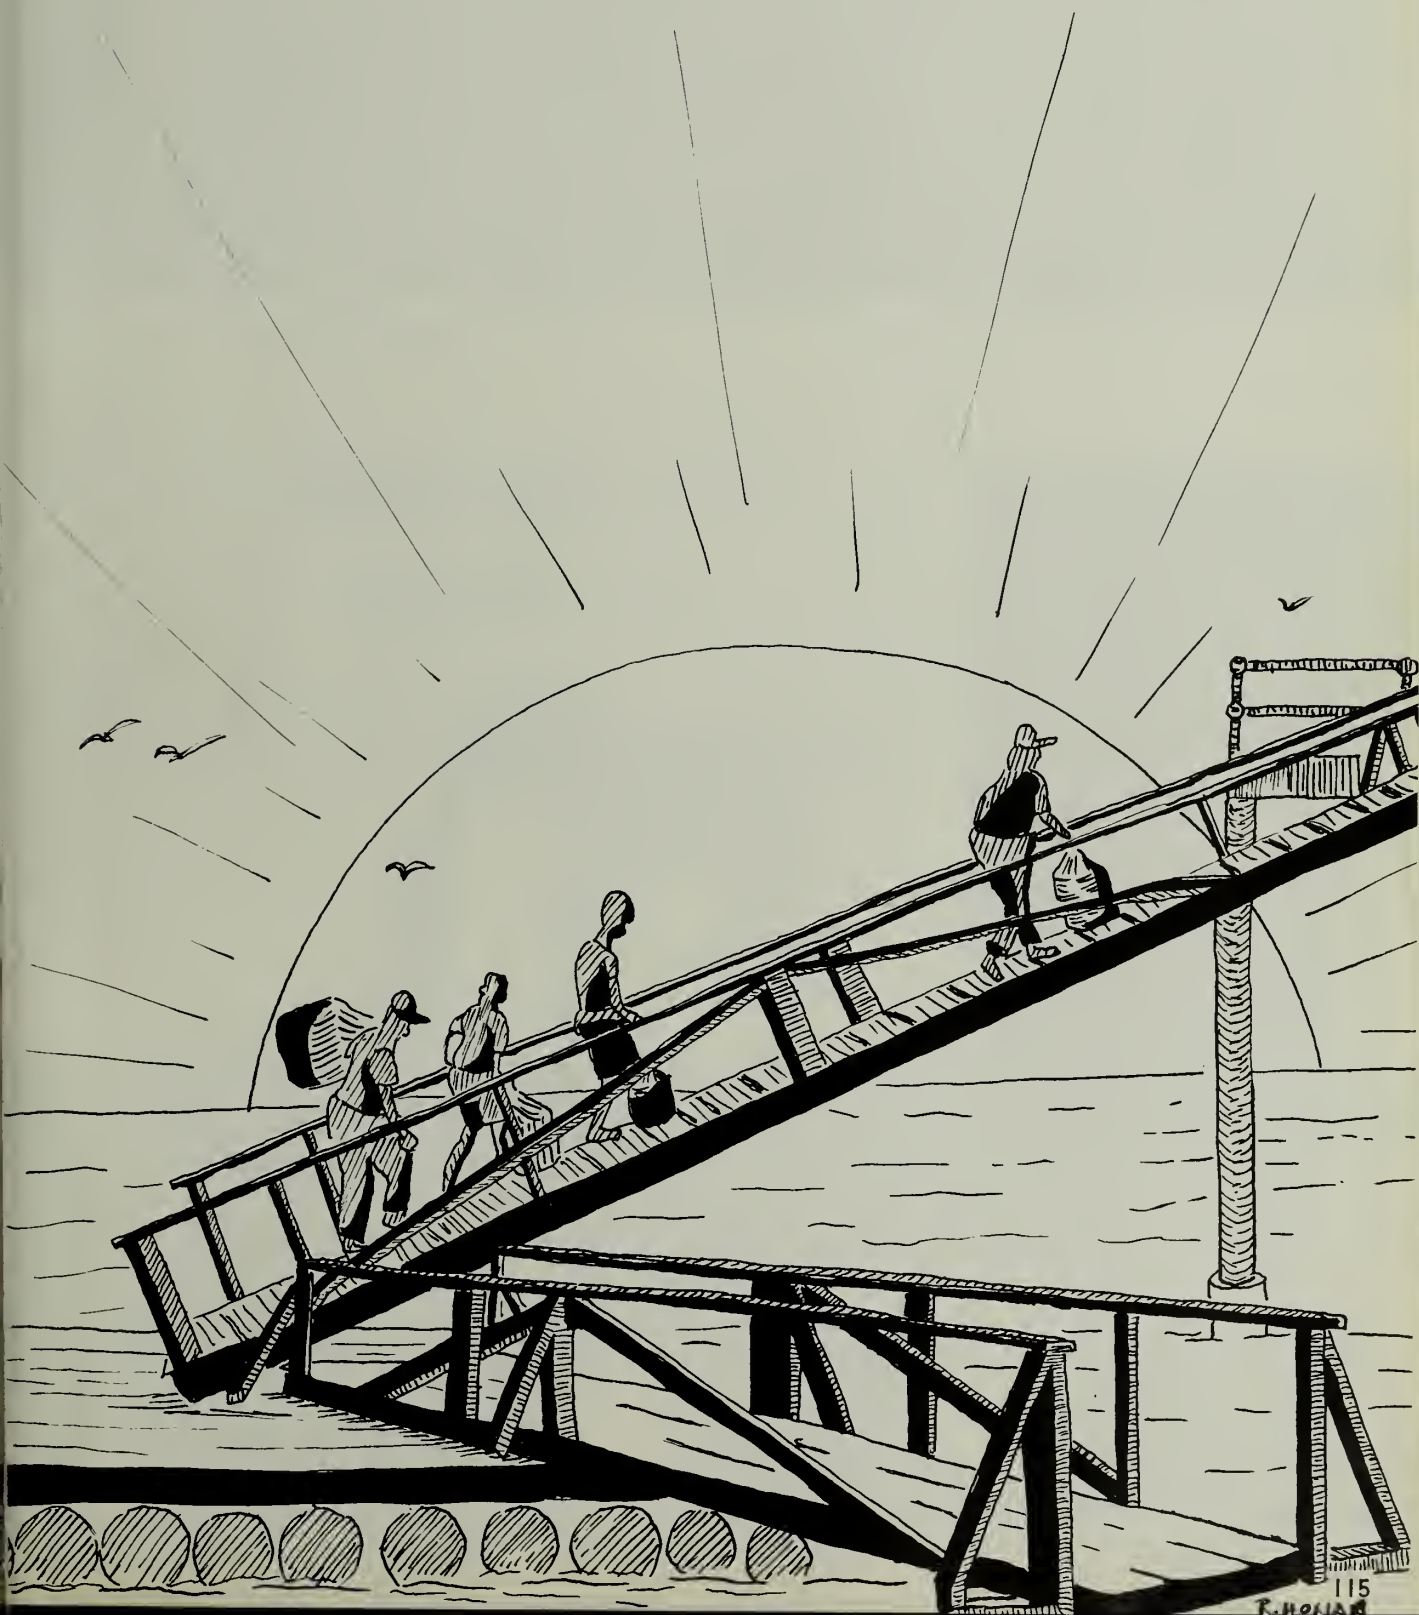

The members of the Caduceus Club have set high goals for their future. Within the group are girls who plan to be nurses, medical technologists, physical therapists and dental technicians. Through the assistance and guidance of Mrs. Tewksbury, the school nurse, the members have been able to hear lectures on the different medical fields.
